CEU
(Computer Emergency Unit)

ABOUT THIS PRODUCT

The Computer Emergency Unit (CEU) is the ultimate security solution for your Westminster & Mayfair Safes, holding up to 125 passcodes for comprehensive access control. This unit comes equipped with a convenient cable to connect the CEU directly to your computer for easy setup. Additionally, it is supplied with batteries so you can count on it being ready to go, straight out of the box. Ideal for security focused hoteliers as it combines efficiency with reliability to safeguard guests valuables.
